PROFESSIONAL SUMMARY

Aspiring Data Analyst and B.Tech Mechanical Engineering student at DCRUST, Murthal, with skills in Excel, SQL, Python, and Power BI. Interested in data cleaning, dashboard development, and business reporting.

EDUCATION

BTech, Mechanical Engineering | DCRUST, Murthal | *2023–2027*

Class XII | Senior Secondary | *2023*

Class X | Secondary | *2021*

EXPERIENCE & VIRTUAL EXPERIENCE

Data Analytics Intern | BharatCares | *Aug 2026–Sep 2026*

- Supported data-analytics activities and structured reporting tasks during the internship.
- Organized information, reviewed findings, and communicated results using digital tools and analytical workflows.

Deloitte Data Analytics Job Simulation | Forage | *Virtual Experience*

- Reviewed business datasets to identify patterns, trends, and observations relevant to decision-making.
- Created a Tableau dashboard to present key metrics and communicate findings in a visual format.

IBM SkillsBuild | Learning & Project Activities

- Completed learning and project activities covering data analytics concepts, digital tools, and AI-enabled workflows.

PROJECTS

Retail Sales Analysis Dashboard | Excel, SQL & Power BI |

- Organizing retail sales data to examine revenue trends, product/category performance, and key business indicators.
- Planning KPI-focused dashboard views to summarize sales performance and support business reporting.

AI-Powered WhatsApp Chatbot

- Designed chatbot workflows for common customer queries, automated responses, and follow-up communication.
- Focused on making information access more consistent and reducing repetitive manual replies.

AI Resume Maker | Web Development link

- Developed a responsive web-based resume builder with customizable templates and live editing.
- Implemented resume formatting controls and PDF export functionality.
- Deployed the application using GitHub Pages.

AI-Based Security Patrol Robot with Real-Time Monitoring System | Academic Project

- Academic team project focused on mobile patrol, camera monitoring, obstacle sensing, and smoke/alarm alerts.
- Planned ESP32-based control, motor drivers, sensor integration, and manual directional control through a mobile interface.

Hand Motion Controlled Robotic Gripper Arm | Academic Project

- Worked on a hand-motion-controlled gripper concept involving sensor input and microcontroller-based control.
- Contributed to programming, component integration, mechanical assembly, and prototype testing.

TECHNICAL SKILLS

- Data Analytics: Microsoft Excel, SQL, Power BI, Python
- Python Libraries: Pandas, NumPy (fundamentals)
- BI & Productivity: Power Query, dashboard reporting, Microsoft Word, PowerPoint
- Web & AI Tools: HTML, CSS, basic JavaScript, Generative AI tools
- Engineering Tools: AutoCAD 2D/3D, SolidWorks, CNC basics, Arduino

CERTIFICATIONS & ACHIEVEMENTS

- Oracle Agentic AI Certified Foundations Associate — **Oracle**
- Foundations of Data Science — **Google / Coursera**
- Python for Data Science, AI & Development — **IBM / Coursera**
- Introduction to Generative AI Studio — **Simplilearn**
- Generative AI Essentials: Using LLMs to Work with Data — **IBM SkillsBuild**
- Make Agentic AI Work for You — **IBM SkillsBuild**
- Deloitte Data Analytics Job Simulation — **Forage**
- University-level **AutoCAD** competition

POSITIONS OF RESPONSIBILITY

- **University-Level Gaming Event Coordinator** — Supported event coordination and event-day arrangements.
- **University Cultural Event Coordinator** — Supported event planning and participant coordination.
- **Design & Academic Project Lead** — Coordinated design tasks, team collaboration, and project progress.
